Stair nosing profiles

Safety and aesthetics are of utmost importance when designing staircases and the right profile can make all the difference.
PROFILITEC proposes a complete line of technical yet aesthetic nosing profiles suitable for all flooring applications. Designed with safety in mind, our range of nosing profiles can be used for renovations in private and public buildings. Non-slip thermoplastic rubber inserts and ribbed treads highlight the cutting-edge details that distinguish PROFILITEC profiles.
These profiles will also reinforce the edge of the stairs at their most vulnerable areas which are exposed high mechanical stresses and traffic making them more durable.
stairtec FS

The patented "Clip System" used in the STAIRTEC FS series which incorporates a modular aluminum base section and replaceable non-slip thermoplastic rubber insert optimizes the challenges of typical transitions from tile flooring to tile stairs. This product range has been designed to match stairs to its connecting floor.

stairtec FW

STAIRTEC FW is a stair nosing profile with a solid oak tread nosing inserted into a perforated aluminum base designed to be adhered into the bonding mortar. Its simple, traditional wood stair design can be used in both modern and traditional settings. Particularly ideal for residential applications, STAIRTEC FW can even be used for edging tiled kitchen countertops.

stairtec FL

The STAIRTEC FL stair nosing profile elegantly finishes stair edges. Its technical, rounded shape becomes a distinctive design feature which hides imperfections and conceals the riser edge, whereas the tread covering can be simply laid flush to the indented lip of the profile. Solid and long-lasting, STAIRTEC FL is truly a decorative element in the design of staircases. The grooved top surface is slip resistant and the profile is suited for both residential and commercial applications. The STAIRTEC FL technical stair nosing profile elegantly finishes stair edges. roundtec RD

The ROUNDTEC RD profile is mainly used in transitioning floor types of different thicknesses, for example from ceramic tile to thin linoleum. Its rounded section provides a smooth level change of 3mm, making it suitable between two floor types or as an end profile. ROUNDTEC can even be used as stair nosing or edging for tile countertops. Available in brass with patented dovetail anchoring.

squarejolly SJ

SQUAREJOLLY SJ is a multipurpose aluminum profile used in laying adhesive ceramic floor and wall coverings. Its uniquely symmetrical shape lends itself to endless detailing possibilities. In the technical specs, H corresponds to the tile thickness and B = H+1 mm corresponds to the visible width of the profile. In the aluminum version, a patented internal cavity with a dovetail groove maximizes vertical grout grip and edge protection. The sectional design of the SQUAREJOLLY SJ profile provides a completely leveled surface, making it resistant to vertical loads and perfectly suitable for flooring applications.

squarejolly SJR

SQUAREJOLLY SJR with Resin Grip is a square section profile designed to finish and protect the tile's edges from shock and mechanical impact. Minimalist and modern design, ideal for residential projects. The resin stripes on the upper surface make the Squarejolly SJR anti slip, certified R11. The profile is also resistant to abrasion (PEI 3) and to chemical agents.

mosaictec SJM

MOSAICTEC SJM is a multipurpose profile to match floor and wall coverings or used as edgings or decorative listellos, with a perfect symmetry of the 2 visible sides. This profile has been specially conceived for thin floors and mosaics, its reduced wing size and thickness is designed to provide the perfect solution for the neat finishing of mosaic tesseras, ensuring a neat, level surface finish. MOSAICTEC SJM belongs to a complete series of solutions for mosaics. A special cubic end cap is available, multipurpose to match with all installation needs.

stairtec SWP

STAIRTEC SWP is an innovative stainless steel button part of the SWR series. Its 5mm-high protruding shape makes this element highly visible and ideal for staircases and marked walkways. The grooved button shank provides adhesive grip. Installation and assembly can be made on or off-site. To install on wood flooring, simply drill a 6,5 mm opening and hammer the button in place. The buttons should be spaced 70 mm on center. To install on natural stone or ceramic tile flooring, simply drill a 7mm opening and fasten the button with the appropriate adhesive. The buttons should be spaced 70 mm on center.

stairtec SC

STAIRTEC SC stair nosing profile is designed for thin, resilient flooring. Simply lay the flooring on the step riser, install the profile covering the riser edge and then apply the tread flooring flush in the indented lip of the profile. STAIRTEC SC profile protects the tread edge and hides riser imperfections.
