

baseboard

BFZ

BFZ is a construction profile that allows you to create a flush-to-the-wall baseboard with the same material as the flooring. In the lower part there are special grooves, designed to allow the insertion of a linear profile which will help to determine the level of the screed and ensure perfect positioning of the heights of doors and windows.

BFZ1000/130AN

Length: 2,70 meters

Aluminum

PP12X2AN included in the packaging

It is recommended to use FIXXTEC multipurpose adhesive to bond the product. For further information, see page 368.
