

# bordertec BHS

BORDERTEC BHS is a perimeter profile that finishes and protects the exposed concrete edge of balconies and terraces for 20 mm thick paving that incorporates an upper notch for terminating and containing the pavers when the border is laid flush with the screed. Designed with a "drip-lip" for water management. The BHS profile has a protruding drip edge, which also protects the Draintec 8 drainage membrane that can be placed under the screed and above the waterproofing layer. Leave a suitable space between the different elements to allow for thermal expansion and treat the gap with the joint element.

BHS55A50

Length: 2,70 meters

Aluminum  
H = 20 mm

It is recommended to use FIXXTEC multipurpose adhesive to bond the product. For further information, see page 368.
