bordertec BSJ

Bordertec BSJ is engineered to delimit the perimeter edges of a raised floor or to create a step (in this case we recommed the application of the SWH carborundum anti slippery adhesive strip). Bordertec BSJ has a decorative visible part of 2 cm. To install the Bordertec BSJ profiles, the vertical tile fits into the groove of the profile giving a continuos finishing between the horizontal and the vertical cladding.

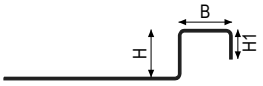

BSJ 20 A50

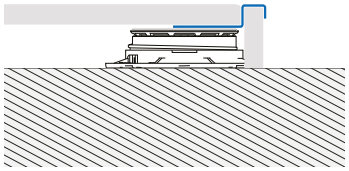

Length: 2,70 meters

Aluminum
H1 = 12 mm
B = 25 mm

Stainless Steel
H1 = 12 mm
B = 23 mm
