

spacers DIT

Perforated plastic spacers for a regular and gauged grout joint tiling in wall and floor coverings. Realised in synthetic material resistant to chemical agents. Available in all the sizes normally required by tile joints. Their anti-floating shape is conceived to keep the spacer imbedded into the fresh grout during tiling and beating (from DIC 30 to DIC 100). Delivered in 500 pcs bags organized in dispenser displays.

DIT20

DIT - Polypropylene

H1 = 4 mm (DIT10/20/30/40/50)

H1 = 6 mm (DIT70)

H1 = 8 mm (DIT100)
