

jointec GC

JOINTEC GC patented PVC joints are conceived for industrial poured concrete floors. The profiles are designed to create a 5 x 5 m grid at floor level, into which the concrete is poured, cured, and polished with a floor grinder. The profiles themselves act as a level line to pour the concrete into ,thus creating a state-of-the-art concrete floor with one simple process.

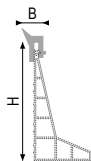

GC80P23

Length: 2,50 m

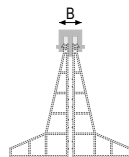

GC - Synthetic Co-extruded

B = 2,8 mm

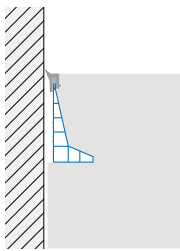

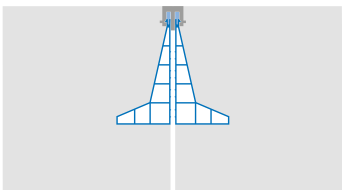

GCP - Resinflex perimeter seal

B = 14 mm

GCR - Assembled joint Resinflex seal

B = 15 mm

PVC

P23

jointec >> GC Co-extruded Synthetic in PVC				
Item	H mm	Finish		pcs
GC80P23250	80	P23 - Cement Grey		8**

jointec >> GCP Synthetic perimeter seal in Resinflex				
Item	H mm	Finish		pcs
GCP80P23	80	P23 - Cement Grey		1 rol 50 m**

jointec >> GCR Assembled joint Resinflex synthetic seal for casting				
Item	H mm	Finish		pcs
GCR80P23	80	P23 - Cement Grey		1 rol 50 m**
