

sanitec IC60

SANITEC IC60 is a range of resin baseboards created for hygienic connections between floor and wall covering or between two walls, particularly in the healthcare, chemical and food fields. Designed for application on existing surfaces, they can be used for renovations and retrofitting of previously built public buildings, because they meet current regulations. Shaped outer edges ensure perfect adhesion of the profile to the substrate.

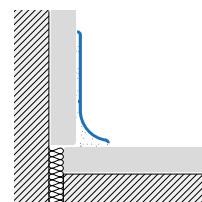

IC60P11

Length: 2,70 meters

PVC
H1 = 20 mm

It is recommended to use FIXXTEC multipurpose adhesive to bond the product. For further information, see page 368.
