

listec LI15 - LI15G

The LISTEC LI 15 aluminum decorative profile is designed for ceramic tile wall coverings. The unique squared section perfectly aligns with modern rectified tile edges. Due to the 8mm profile thickness and interlocking plastic spacers, the strip profile is adaptable to any tile thickness over 7mm. Internal and external corners may be finished with SQUAREJOLLY, ROUNDJOLLY or KERAJOLLY joint profiles, avoiding 45° mitered corners. For information on the plastic spacers (LIA).

LI15ATWE

Length: 2,70 meters
