

linetec MB

LINETEC MB decorative profiles are installed on site in mortar bed applications. Its perforated flange deeply inserted into the mortar guarantees a secure grip between the two adjacent surfaces. It is commonly used with natural stone flooring to decoratively segment the floor surface. Available in brass and aluminum, both the 5mm and 10mm profile widths can be ground and polished on site.

MB50N

Length: 2,70 meters

Aluminum - Brass

It is recommended to use FIXXTEC multipurpose adhesive to bond the product. For further information, see page 368.
