

wallprotection WB

Synthetic resin skirting, through body colored to hide the effects of wear and damage. The smooth surface makes it easy to clean and more hygienic than traditional skirtings. Available in colors and a range of dual-colored options. For sanitary benefits, the profile is coved which will allow for it to be "set-in" to the flooring using a cold weld procedure for a totally homogeneous finish. Thanks to the particular material composition and to the specific cavity at the bottom, this skirting can also be chemically welded to the PVC floor, as often required by hygiene standards. The WB skirting profile can be coordinated with the other profiles in the wallprotection range - corner protectors (WA) and bumper guards (WP).

WB100P11/22

Length: 2,70 meters

Synthetic resin
H1 = 15,8 mm

It is recommended to use FIXXTEC multipurpose adhesive to bond the product. For further information, see page 368.
