

zerotec ZR

Resilient materials are commonly used for floors and walls as well as over existing flooring. For thinner flooring materials, we recommend profiles that can be solidly anchored and provide maximum edge protection. The ZEROtec family of profiles, particularly the ZR50 profile, meets these needs by providing a solid base with tapered openings for mechanical fastening or to be adhered using appropriate adhesive. ZR50 profiles provide sloped and ADA-compliant edge protection for resilient flooring materials.

ZR50AT

Length: 2,70 meters

Aluminum
ZR50A* - B=15,1 mm

☑ **SELFLINE**/KIT PRE-CUT
