showertec STKV

The SHOWERTEC STK range includes a series of profiles dedicated to the shower area. They are products designed to simplify the installation phase. The STKV profiles can be mounted on the floor and on the wall to achieve a safe assembly of the glass wall of the shower and to obtain a homogeneous and optimal finish thanks to the clean line of the installation. The Showertec STK profiles create bathroom environments with a minimalist and modern design, obtaining floor-level showers without obstacles and without architectural barriers.

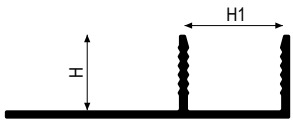

STKV100IS + STKV100AS

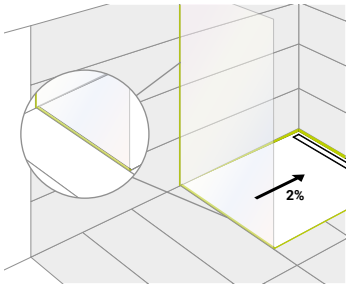

Length:2,00 metres - 2,40 metres stainless steel

Stainless Steel
H = 10 mm

Aluminum
H = 10 mm

It is recommended to use FIXXTEC multipurpose adhesive to bond the product. For further information, see page 368.

showertec STKPV

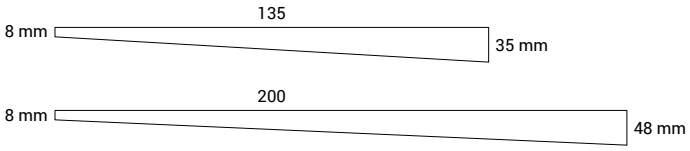

The SHOWERTEC STK range includes a series of profiles dedicated to the shower area. They are products designed to simplify the installation phase. STKPV profiles act as a transition between the sloping tiled shower tray and the floor when you want to install the glass wall as well. The latter can be combined with its STKF front profile and with the STKV glass holder profile mounted on the cladding to achieve safe assembly of the glass shower wall and to obtain a homogeneous and optimal finish thanks to the clean line of the installation. The Showertec STK profiles create bathroom environments with a minimalist and modern design, obtaining floor-level showers without obstacles and without architectural barriers.

showertec STKF

The SHOWERTEC STK range includes a series of profiles dedicated to the shower area. They are products designed to simplify the installation phase. The STKF profiles act as a transition between the sloping tiled shower tray and the cladding. The latter can be integrated with its STKP front profile to obtain a homogeneous and optimal finish thanks to the clean line of the installation. The Showertec STK profiles create bathroom environments with a minimalist and modern design, obtaining floor-level showers without obstacles and without architectural barriers.
